**Art Unit: 1623** 

#### **DETAILED ACTION**

The amendment filed 10/8/2004 has been received, entered and carefully considered.

The following information provided in the amendment affects the instant application:

- 1. Claims 4, 10, 14-15 have been canceled.
- 2. New Claim 16 has been added.
- 3. Claims 1, 6, 11 and 13 have been amended.
- 4. Remarks drawn to rejections under 35 USC 112, obviousness type double patenting and 35 USC 102.

Claims 1-3, 5-9, 11-13 and 16 are pending in the case.

The text of those sections of Title 35, U. S. Code not included in this action can be found in a prior Office action.

## Claim Objections

Claims 7 and 9 are objected to because of the following informalities:

Claim 7 depends from itself. The dependency of claim 7 has to be amended. The dependency of claim 9 is not recited in the claim.

Appropriate correction is required.

#### Claim Rejections - 35 USC § 112

The rejection of claims 1-15 under 35 USC 112, second paragraph has been overcome amendments to claims 1, 5, 6, 11 and 13.

Application | Control Number: 09 | 754,580

Art Unit: 1623

## **Double Patenting**

Claims 6, 8 and 16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. 6,606,184 ('184 patent) in view of Blount (US 4,321,360, '360 patent) is being maintained for reasons of record.

Applicant has to file a Terminal Disclaimer to overcome the rejection.

# Claim Rejections - 35 USC § 102

Claims 1-3, 5, 7, 9, 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated individually by Blount (US 4321360) and Hedrick (US 4650689) for reasons of record.

Applicants argue that Hedrick uses an entirely different process for the production of ethanol from cellulose and that the instant invention is different from Blount because it may utilize cellulose material containing lignin and additional steps are used to separate the lignin from cellulose and carbohydrates.

This is not found to be persuasive.

The disclosures of Blount and Hedrick are deemed to meet the limitations of claims 1-3, 5, 7, 9, 11-13

Claims 1-3, 5, 7, 9, 11-13 are Product-by-process claims. Product-by-process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps.

"Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the

prior product was made by a different process." In re Thorpe, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

#### Conclusion

Claims 1-3, 5-9, 11-13 and 16 are rejected

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ganapathy Krishnan whose telephone number is 571-272-0654. The examiner can normally be reached on 8.30am-5pm.

Art Unit: 1623

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James O. Wilson can be reached on 571-272-0661. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
